

**COMMANDING OFFICER
FIELD MEDICAL TRAINING BATTALION – EAST
COMMAND PHILOSOPHY**

It is my honor and privilege to be a member of this command. We will continue to build on the great achievements and reputation of those who were here before us.

Mission: Our command trains the Sailors who support the USMC in virtually every scenario and any mission. We support the warfighter; we are warfighters. This is why we exist. As such, we as a command will continually strive to improve and be ready – material readiness, professional competency, technical proficiency, and personal mental, spiritual, and physical health.

People: You are all vital to this command. Though we are all replaceable, we cannot successfully undertake the mission without everyone’s best effort. To enable the best effort, we will look out for the complete welfare of every Marine, Sailor, Civilian, student, and family member in the command. We will treat all with dignity and respect, engendering trust. We will empower leadership, and encourage innovation and improvement at all levels.

We will create a climate of success together. I will give you the best I can every day. All I ask is you do the same.

**J. J. REPASS
CAPT USN
Commanding Officer**
