Subj: SAFETY POLICY LETTER

Marine Detachment NAVSCOLEOD is dedicated to the force preservation of our Marines. Whether we lose a Marine due to combat operations, or due to a liberty incident, we have still lost a valuable member of our fighting force. We must ensure our fellow Marines practice all aspects of safety, both on and off duty, with a common sense approach that will foster an accident free environment. The Marine Corps operating forces are in great need of EOD personnel in order to face our current and future threats. We must do all we can to train and graduate a physically fit Marine EOD technician.

I challenge each and every one of you, as Marine NCOs, SNCOs and Officers, to ensure that we continue to do all we can to have zero incidents that result in serious injury or loss of life. We must foster our ORM practices that set us up for success in the training environment as well as on the battlefield. A 24 hour a day watchful eye on each other is essential for us to minimize the chances of losing a fellow Marine and national asset.

This overall policy is simply meant to reinforce existing regulations and ensure each Marine understands his or her role in our command safety program.

Semper Fidelis,

D. E. PILCHER
