CPP.9
Pistol Reloads
Speed Reload

Perform a speed reload when:

• The pistol runs out of ammunition during engagement.

• The slide locks to the rear.
Speed Reload
Perform a Tactical Reload when:

- There is a lull in the action.
- Whenever deemed necessary by the Marine.
Tactical Reload
## Considerations for Reloading

- **First priority** – get pistol reloaded.
- **Second priority** – retain magazine.
- Take cover before reloading.
- Focus on the reload for that instant -- not the enemy.
