COPY OF
ALL SERVICE MEMORANDUM OF UNDERSTANDING

Subj: Use of Service Weapons in Competitive Marksmanship Programs

I. PURPOSE

This understanding sets forth policy governing the entry of uniformed service competitors in specified rifle matches.

II. BACKGROUND

Government funds used in support of competitive marksmanship programs are appropriated to attain training objectives. Since the final objective in marksmanship training is proficient combat rifleman, weapons used by these riflemen should correspond to the service weapons issued to and used by these individuals in the performance of their primary mission. Because of special competitions, such as long range and international type matches, exceptions from this understanding for these matches are authorized.

III. UNDERSTANDING

Military competitors whose transportation or other travel expenses are paid, wholly, or in part, from Government funds, appropriated or quasipublic (exchange, recreation, welfare and morale) and/or who uses government issued equipment will be required to fire a service rifle authorized by paragraph 25, AR 920-30/OPNAVINST 3590.7B/AFR 50-17/MCO P3590.13 at ranges of 200 through 600 yards in all NRA registered or approved matches or other civilian sponsored competitions. Personnel will fire the type service rifle as directed by their parent Service. The firing of other weapons at greater ranges or in international type matches is permissible.

IV. EFFECTIVE DATE

The effective date of this agreement shall be 1 January 1971
