WARRANT OFFICER BASIC COURSE (WOBC) 1-18 APPOINTMENT AND GRADUATION REQUIREMENTS

Appointment Requirements:

Those selected to attend the active duty WOBC 1-18 will be appointed on 1 February 2018 after meeting the following requirements:

a. Appointees must be found physically qualified for appointment by the Chief, Bureau of Medicine and Surgery (BUMED) in accordance with the requirements outlined in MARADMIN 478/16 prior to arrival at The Basic School.

b. Appointees must pass a physical fitness test (PFT) with a first class score. Selectees are given two attempts within the first week of training to achieve a first class score. Those unable to do so will be dropped from the course. Appointees must also be within Marine Corps height/weight standards in accordance with Marine Corps orders. Information pertaining to physical fitness standards, to include scoring and Body Composition and Military Appearance (BCP/MAP) standards, can be found at the following link: http://www.fitness.marines.mil/pft-cft_Standards/

c. Appointees must complete the requirements outlined in pages 6 and 7 of this document prior to arrival for check-in.

Graduation Requirements:

Those appointed to WOBC 1-18 will meet the requirements of the WOBC curriculum in order to graduate the course. Students are evaluated and must achieve an overall average of above 75% in each of three areas, outlined below and weighted accordingly:

a. Academics (30%): The academic portion of student evaluation encompasses all quizzes associated to course material and (4) phased written examinations. Students must achieve above a 75% score to pass each written exam.

b. Military Skills (30%): The military skills portion of student evaluation encompasses the following evaluated events:
   1. Initial Physical Fitness Test
   2. Writing Assessment
   3. Night Land Navigation Performance Examination
   4. Day Land Navigation Performance Examination
   5. Mid Performance Examination
   6. Final Performance Examination
   7. Final Physical Fitness Test
   8. Final Double Obstacle Course
   9. Final Endurance Course
Students will additionally be required to complete a 10 mile hike under a prescribed load. Students must complete the 10 mile hike and achieve above a 75% on each military skills event in order to graduate.

c. Leadership (40%): The leadership portion of student evaluation encompasses leadership grades given by the student’s Staff Platoon Commander as evaluated in Command Evaluation I and Command Evaluation II. This grade includes, but is not limited to: evaluations in tactical field exercises, evaluations in garrison billets, Company Commander uniform and equipment inspections, and individual actions throughout the conduct of the course. The end state of the course is to graduate Warrant Officers who are:

1. A man/woman of exemplary character
2. Devoted to leading Marines 24/7
3. Able to decide, communicate, and act in the fog of war
4. A Warfighter who embraces the Corps’ warrior ethos

Mentally strong and physically tough. Students who achieve below a 75% in any of the three listed areas may be referred to an Executive Officer Interview (XOI) or Student Performance Review Board (SPRB) to determine whether the student will remediate and continue training or be dropped from the course to begin training with a follow-on company at a later date in accordance with the TBS Standard Operating Procedures (SOP). Students must meet the requirements listed above in order to graduate from WOBC.
Congratulations on your selection as a Warrant Officer of Marines. You are about to embark upon a truly remarkable journey as an officer of Marines. That journey begins with your successful completion of the Warrant Officer Basic Course (WOBC) at The Basic School (TBS) in Quantico, Virginia.

**Warrant Officers and Title 10:**

Warrant Officer (WO) is an appointed rank, vice a commissioned one. Chief Warrant Officers (Marine Gunners and Recruiting Officers) are commissioned. All Chief Warrant Officers and Warrant Officers must successfully complete the WOBC in order to retain their appointment or commission. Title 10 U.S.C. Section 1165 states:

> THE SECRETARY OF THE NAVY HAS THE AUTHORITY TO TERMINATE THE REGULAR APPOINTMENT OF ANY PERMANENT REGULAR WO AT ANY TIME WITHIN THREE YEARS AFTER THE DATE WHEN THE OFFICER ACCEPTED HIS ORIGINAL PERMANENT APPOINTMENT. A MARINE WHOSE APPOINTMENT IS TERMINATED MAY, UPON HIS REQUEST AND AT THE DISCRETION OF THE SECRETARY OF THE NAVY, BE ENLISTED IN A GRADE NOT LOWER THAN THAT HELD IMMEDIATELY PRIOR TO APPOINTMENT.

**WOBC MISSION STATEMENT:**

Train and educate newly appointed warrant officers in the high standards of professional knowledge esprit-de-corps, and leadership required to transition from enlisted Marine to officer with particular emphasis on the duties, responsibilities and warfighting skills required of a provisional rifle platoon commander.

**WOBC 1-18 Key Dates:**

Report Date: NET 1200, 21 Jan 2018; NLT 1700, 22 Jan 2018
WO Appointment Ceremony: 1 Feb 2018
Graduation: 23 May 2018

**The Warrant Officer Basic Course:**

The WOBC is an eighteen-week course that focuses on the transition from enlisted Marine to Marine officer. TBS and the WOBC focus on five horizontal themes that define expectations of all Marine Officers: (1) a man/woman of exemplary character, (2) devoted to leading Marines 24/7, (3) able to decide, communicate, and act in the fog of war, (4) a Warfighter who embraces the Corps’ warrior ethos, and (5) mentally strong and physically tough. The universal concept that Marine Officers must be able to assess situations, weigh the pros and cons of various decisions, make a decision, develop a plan, communicate that plan effectively, and supervise its execution is stressed and exercised throughout the course. The course will teach the science and art required for service of Marine Officers with an emphasis on decision-making throughout. Provisional infantry and planning subjects are together used as
the means or vehicle to teach and evaluate this process. Since all students are evaluated on leadership as Marine Officers; physical, mental, and emotional stress are incorporated throughout the course in order to evaluate the ability to lead in chaotic and stressful environments. Some individuals will be pushed close to their failing point, but the WOBC is designed to give students an opportunity to display positive leadership qualities in the face of adversity.

The WOBC is not a “check in the block.” It is a course designed to provide students with the learning experiences necessary to effectively transition to service as a Marine Officer. Students who do not successfully complete the course face a variety of administrative actions, including repetition of the course, recycle to a six month lieutenant Basic Officer Course, revocation of appointment, or separation from the service.

The WOBC curriculum is an academically rigorous, provisional infantry and staff planning-based program of instruction (POI) which consists of approximately 935 hours of formal instruction. The POI includes classroom instruction, field exercises, sand table exercises, tactical decision games, and discussion groups. Classroom instruction is designed around the flipped classroom model. Students are expected to read the student handouts prior to class and arrive to instruction with questions on course material. While some dedicated student preparation and study time is allotted regularly throughout the schedule, each student is responsible for engaging in a well-planned deliberate study effort in advance of the upcoming lessons. This permits multiple periods of study and review rather than last minute cramming. Lectures begin with quizzes over simple baseline material covered in the student handouts to hold students accountable for the expected level of preparation before the lesson. Lectures generally utilize an active learning approach to move beyond hearing about concepts to applying concepts to solve problems during lessons. Students are expected to be thoroughly prepared for all portions of the instruction.

As Marine Corps Officers, students must be prepared to demonstrate an ability to communicate effectively, both verbally and in writing. A student’s ability to communicate is heavily emphasized and evaluated throughout the POI. New appointees are required to review and show completion of the following courses on MarineNet prior to arrival:

- Business Writing: Editing and Proofreading – COMM1903
- Business Grammar: Sentence Construction – COMM2005
- Business Grammar: Punctuation – COMM2004

Selectees must also arrive having read the book, “Black Hearts: One Platoon’s Descent into Madness in Iraq’s Triangle of Death” by Jim Frederick. A writing assessment and discussion will be conducted on this book during the first week of the course.

Combat orders and reports are heavily emphasized throughout the POI, so students are required to refresh their knowledge of combat orders and seek instruction through MarineNet or any other available resource. Students are
required to complete the MarineNet course on Combat Reports, identifier M00CR_0799 prior to arrival and show completion.

Selectees are required to read and review the following publications prior to check in:

a. MCDP 1 Warfighting  
b. MCDP 1-3 Tactics  
c. MCDP 5 Planning  
d. MCDP 6 Command and Control  
e. MCWP 6-11 Leading Marines

Additionally selectees are required to review the following student handouts prior to checking in. The student handouts listed are located on the TBS website under WOBC “Student Material”, “Phase II.”

a. Principles of Fire Support (W280001XQ)  
b. Squad Weapons (W2A0001XQ)

Successful completion of the WOBC will depend on a student’s performance in three evaluated areas: academics, military skills, and leadership.

In addition, a student’s appearance in and out of uniform must set the example and is a mark of professionalism. Arrange at TBS with appropriate civilian attire per applicable Marine Corps Orders and TBS guidance. The TBS guidance on appropriate civilian attire can be found on the TBS website.

**WOBC Keys to Success:**

Students who adequately prepare and maintain personal excellence in the following areas throughout the WOBC POI will be set up for success. However, these areas can quickly become a common pitfall if individual focus is not applied:

1. Physical preparation: Selectees are required to pass a physical fitness test (PFT) with a first class score during the first week of training. Selectees who do not score a first class PFT after two attempts will be dropped from the course. Performance on the PFT and CFT are not sufficient indicators of readiness for the physical rigors of the course. Students should prepare for dismounted movement under load at a 3-mile per hour pace up to 10 miles. Students can anticipate multiple individual land navigation events and unit field exercises on uneven terrain in daylight and darkness within areas up to 20 square kilometers. Students can also anticipate running a double standard USMC obstacle course, as well as the TBS Endurance Course. Selectees will be required to complete a 10 mile hike, Double Standard USMC Obstacle Course, and TBS Endurance Course within prescribed times in order to graduate. Students who are unable to do so will not graduate from WOBC. Selectees are encouraged to arrive at TBS with a pair of broken in boots and in peak physical condition, prepared for the physical requirements of the course.

2. Academic preparation for lessons: Students who struggle in the academic portion of the course typically do not read the student materials before the lesson, setting them behind during the lesson and beyond. All student handouts can be located on the TBS Website under the WOBC “Student Material” tab. Each portion is separated by phase of the POI. Students who struggle
during the POI attempt to cram at the last minute or try to follow along in the student handouts during lessons, simply attempting to absorb information, rather than reflect on (and build from) background knowledge gained in prior self-study. The course builds upon itself and is based on an active learning environment, with subject matter shifting from the classroom to field or briefing settings where successful communication and application rely on confidence and mastery of previous material. Staying ahead of upcoming lessons is a constant challenge that requires effective time management and consistent study skills. Those that fall behind early academically will find it increasingly difficult to recover as the POI progresses. While quizzes taken prior to the class evaluate understanding and memorization of material, written and performance-based examinations test the conceptual application of course material to practical scenarios.

3. Keep personal affairs in order: The WOBC is a demanding course which will take the full measure of student’s time and effort through graduation. Prior to coming to the course, students should set personal affairs in order to the maximum extent reasonable, to include completing any necessary Power of Attorney forms for family members or spouses and generating a family care plan to cover contingencies that may arise during the course of the POI. This will free students to focus on best efforts in the course.

4. Transition from NCO/SNCO to Officer: Transition is about understanding and internalizing the differences in leadership approach between NCOs/SNCOs and officers, maintaining some habits and practices, and leaving others behind. Throughout the course, all instruction and evaluation serve as a means to develop this understanding and detect sufficient progress towards the end state of the course, which is to be:
   - A man or woman of exemplary character
   - Devoted to leading Marines 24/7
   - Able to decide, communicate, and act in the fog of war
   - A warfighter who embraces the Corps’ warrior ethos
   - Mentally strong and physically tough

**Check-In Procedures:**

1. Selectees shall check-in in your Service “A” uniform and have an extra set ready for the appointment ceremony. All WOBC 1-18 students must check-in between 0700 and 1700 on 22 January 2018. Students traveling from OCONUS or from outlying locations may check in after 1200 on 21 January to receive a barracks room, but will be required to go through normal check-in procedures on 22 January with the remainder of the company. It is highly recommended that you check in by 1200, 22 January. In-processing will include: briefs by the company staff and supporting agencies, medical/dental screening, urinalysis, issue of supply gear, an initial PFT, height/weight screening, Service Record Book (SRB) conversion to Officer Qualification Record (OQR), ID card conversion, and vehicle registration. Per paragraph 5 of the selection MARADMIN, parent commands that are issuing TAD, TEMINS or PCS (Gunners) orders to WOBC are responsible for issuing a DD Form 214 prior to detachment which covers their entire enlisted period of service through 31 Jan 2018. NAVMC 763 (Appointment Acceptance and Record) forms will be issued
at The Basic School upon appointment.

2. Selectees should arrive to TBS fully medically ready to train. This includes completion of all medical requirements (HIV blood draw, immunizations, dental screening, PHA, optometry, audiogram, etc.) prior to arrival. Selectees must bring medical and dental records and be certified as medically ready to train prior to arrival at TBS. Any known medical issues should be identified to TBS medical personnel immediately upon arrival for check-in.
**Appointment Ceremony:**

On 1 February 2018, selectees will be appointed warrant officers at a ceremony held at Little Hall aboard Mainside Quantico.

Prior to the official appointment ceremony, students will be provided the opportunity to be pinned individually at their discretion; students are welcome and encouraged to invite a guest to conduct the pinning ceremony. Under Title 5, U.S. Code 2903, a commissioned officer must administer the oath. This day will be one of the most professionally and personally important days for all of the students. Family and friends are invited to share this day with the newly appointed officers. The staff at TBS is aware of the significance of this event and will make every attempt to accommodate all invitees and desires for his/her individual appointment ceremony. To aid in ensuring this event is enjoyed by all, students are required to inform the Protocol Office, through their staff chain-of-command, at TBS of their list of invitees for both the official ceremony and the following individual pinning ceremony no later than 15 January 2018.

More details regarding the Appointment Ceremony will be released at a later date to enable student planning. The point of contact for the matters pertaining to the ceremony is the WOBC Executive Officer, Captain Jonathon Laurin. Email is the recommended form of contact at [jonathon.laurin@usmc.mil](mailto:jonathon.laurin@usmc.mil).

**Physical Conditioning:**

As mentioned above, the WOBC includes an extensive amount of time in the training areas that surround TBS and Camp Barrett. For this and other reasons, students must report in top physical condition. Students who report in less than top physical condition typically struggle with the strenuous physical nature of the course. Further, physical conditioning is an important aspect of officer leadership. The pace of the WOBC curriculum is intense, and students will not have time to “get in shape” upon arrival. The physical conditioning program will even challenge officers who already possess a high degree of physical fitness. Multiple PT sessions throughout the POI are referred to as “combat conditioning practical application”. The physical training program is not designed to ensure Marines are fit enough to pass the PFT but is oriented toward ensuring Marines are combat-conditioned and physically prepared for the rigors of combat operations. The physical training program is not progressive in nature as many of the most physically challenging events will occur early in the POI. A student’s physical condition is evaluated multiple times throughout the POI, to include two PFTs, one CFTs, multiple runs of the standard USMC Obstacle Course, the Endurance Course, and numerous conditioning hikes that will coincide with major field events. Standards of military appearance, including body fat composition and height/weight standards, will be enforced at all times.

Prior to arrival, students should ensure their ability to complete a Double Obstacle Course, encompassing two back-to-back runs of the standard USMC obstacle course. Emphasis should be placed on ability to climb the rope. Additionally, students should prepare for the TBS Endurance Course, a 5 mile course in full utilities with a weapon and assault pack. Emphasis in preparation should be replaced on running in full utilities and negotiating...
man-made and natural obstacles. Both events are evaluated as part of the overall military skills grade and are graduation requirements.

**Physical Fitness Test:**

Students will take two PFTs during the WOBC. One PFT will be taken during the in-processing week (Zero Week) at TBS. A first class score is required to be appointed and begin the course. Students will be given two opportunities to pass the PFT to be appointed and begin training during Zero Week. The final PFT will be a graded event that counts toward the student’s overall Military Skills grade. A first class score on the final PFT is a graduation requirement.

**Land Navigation:**

The land navigation program is one of the most challenging in the U. S. Armed Forces. Instruction includes mapping skills, terrain analysis, and numerous day and night practical application exercises. The land navigation exercises and the day and night final examination are physically demanding and cover great distances across rugged terrain. Land navigation exercises and evaluations will be conducted as an individual effort. A student must pass a full day land navigation final exam and a challenging night land navigation final exam in order to graduate. NO GPS ARE ALLOWED IN THE TRAINING AREA. Any student found to be utilizing or generating an answer matrix for the TBS land navigation courses will face appropriate disciplinary action.

**Field Training:**

Field exercises at the WOBC consist of instruction in squad and platoon offensive and defensive tactics, patrolling, military operations in urban environments, and basic weaponry. Students will be assigned leadership billets and evaluated on their leadership performance and ability to utilize course material in a field environment.

**Military Autobiography:**

Each student will write and submit his/her military autobiography detailing family and educational backgrounds, reason(s) for becoming an officer, and complete military background. Military background shall include important dates, accomplishments, duty stations, assignments, and future aspirations. Students will be contacted prior to arrival from the WOBC XO with the format for the autobiography and will be expected to have it prepared prior to check-in.

**Additional Training Requirements:**

Students are encouraged to arrive at TBS with a current rifle, pistol, swim, and MCMAP qualification. The students will not qualify on the rifle, pistol, swim, or MCMAP during their time with WOBC 1-18. If a student is a black belt, they are expected to pass all physical fitness events, or they could be stripped of their belt.
Accommodations:

While attending the WOBC, single students will be required to maintain a room in the BOQ at TBS. The rooms are not large and contain a bathroom, racks, dressers, desks, and a small refrigerator. It is recommended that students are conservative with the personal belongings they bring with them. Students may bring a laptop computer, a small TV, iron, and ironing board. In the BOQ, many living expenses are optional for students. Phones, cable television, and internet service are available and must be ordered and paid for by the individual rooms. Warrant officers who reside in Quantico and the local area of northern Virginia are authorized to maintain their residences until the completion of WOBC and the receipt of orders. Do not bring your family if you are on TAD orders. You will not receive a BAH waiver to Quantico unless this is your follow on duty station.

All Marines will be entitled to BAH rate retention upon appointment to warrant officer should their BAH rate decrease with the associated grade change.

Expenses:

In addition to the room amenity items discussed above and the expense of officer uniforms, expect to contribute about $50 per month for the student-operating fund. This fund pays for the company mess night, cruise books, photos, mixers, and other functions the company will hold. Be prepared to pay for all housekeeping items (mops, brooms, toilet paper, etc.). Room cleanliness is the individual student’s responsibility. Field rations and MREs will be provided during field exercises. Pay will be checked accordingly. Be sure to bring personal checks to TBS as cash and credit cards will not be accepted by certain agencies.

Selectees are not entitled to a lump-sum leave (LSL) payment for the enlisted to officer transition. All leave is carried over from the enlisted leave balance.

The Navy Mutual Aid Association and the Marine Corps Federal Credit Union offer low interest "career starter" loans to students upon arrival, ($5,000 at approx. 2%). Also, the Marine Corps Exchange and the Marine Shop each have a uniform payment plan for students. MCX, for example, will provide an interest-free loan on uniforms for up to 18 months.

Computers:

Students should bring a personal computer to TBS as student handouts will be provided in digital format only and quizzes will be taken electronically. Additionally, it is recommended that students bring a personal printer for student handouts and course assignments. If available, students should bring a CAC card reader and compatible computer. CAC card readers issued by TBS are not compatible with Apple products. Internet access in the student barracks is available at the student’s own expense. All combat orders at the WOBC are hand-written, but students will be expected to generate MS Word and Excel documents throughout the POI.
Recommended/Required Items:

<table>
<thead>
<tr>

<td>Field note-taking gear</td>
</tr>
<tr>
<td>Appropriate sunglasses</td>
<td></td>
</tr>
</tbody>
</table>

Most, if not all, of the above listed items are available at area MCXs and department stores. Students are encouraged to resist the urge to buy excessive amounts of “high-speed” gear, as the gear issued to students is sufficient and only issued gear will be allowed in most field evolutions.

Uniforms:

Students are required to possess appropriate officer Service “A” uniform prior to the appointment ceremony. Students are required to possess all officer uniforms prior to WOBC graduation. The minimum uniform requirements are identified in the current edition of MCBUL 10120. If uniform items have been purchased already, be sure to bring all uniforms, as staff platoon commanders will inspect them.

The uniform of the day is the utility uniform, although the service “B” and “C” uniforms are worn periodically. Females will have the option to wear either skirts or slacks with the service uniform.

Before purchasing any officer uniforms, seek the advice of a recent WOBC/TBS graduate concerning their experience with the services provided by the two authorized vendors in the Quantico area.

Students are strongly encouraged to purchase uniforms prior to reporting aboard. Uniforms purchased at other Marine Corps Exchanges can be tailored free of charge at the TBS Uniform Shop, provided the student has a letter attesting to this agreement. Be wary of used uniforms; they must pass inspection at TBS. This will not be a problem if the item is 100% serviceable and fits correctly.

If students desire to convert an enlisted uniform to officer specifications, they are advised to first have the uniform inspected at TBS to
establish its serviceability. In the past, officers have brought a converted uniform to TBS only to have noticeable defects pointed out during an initial inspection. Many defects and blemishes render the uniform unserviceable and will result in unforeseen expenses. If students want to convert their Service Alpha blouse, it must be inspected for fading around chevrons/hash marks and must not have been damaged by sewing these items onto the uniform. Long and short sleeve khaki shirts must be inspected as well. Students are required to wear the Dress Blue “B” uniform to the mess night.

Students are required to possess a standard PT uniform. At TBS, this will consist of green shorts (silkies are not authorized), a green T-shirt, Marine Running Suit (top and bottom), a pair of running shoes, and a reflective running belt. These items are available at the Camp Barrett Exchange and exchanges throughout the base. Students will also need a pair of well-broken in combat boots for PT events.

Final enlisted clothing maintenance allowance will be paid out in full in February once selectees’ accepted appointment posts in MCTFS.

Selectees with additional questions not answered in this document may also contact the WOBC XO via e-mail. POC for check-in questions is also the WOBC XO listed in the MARADMIN. Selectees are further encouraged to check the website periodically for updates concerning WOBC 1-18.

**Civilian Attire:**

Per the TBS Standard Operating Procedures (SOP), the following guidance is applicable to all selectees with regard to wear of appropriate civilian attire while at TBS:

a. Blouse: Males will wear collared shirts without rips, tears, or frays. In colder months, males may forego the collared shirt in lieu of a sweater or fleece. Females will wear conservative blouses without rips, tears, or frays. Females will not be required to have a collar on their blouse. Males and females are not required to tuck in their shirt if it has a tailored edge.

b. Trousers: Denim jeans, khaki trousers, and dress trousers are acceptable for both males and females. Trousers will be free of rips, tears, frays, and will fit appropriately. If the trousers have belt loops, a belt must be worn. Shorts are authorized and must be conservative in length and free of rips, tears, and frays, as well as composed of the same material of appropriate trousers. Trousers and shorts will be worn at the waist with no undergarments showing. Skirts are authorized for females and must be
conservative in length. Sweatpants and track pants are not authorized as civilian attire.

c. Footwear: Footwear must be commensurate with the attire being worn. Plastic shower shoes are not authorized footwear, but sandals/flip-flops are authorized.

d. Headgear: Headphones are not authorized while walking/running aboard MCB Quantico. Hats, such as baseball caps or beanies, are authorized but must be removed when entering any government building. Any other head gear (handkerchiefs, doo rags, etc.) are not authorized.
Planning Your Move:

For any questions relating to your move, you can utilize one of two professional PCS information and assistance services listed below.

www.move.mil

The new Defense Personnel Property integrated information management system will bring improvements for customers as well as for the men and women that manage the household goods movement process. It’s all about improving quality of life for service members.

Customers and their families will see improved services
- Full replacement value protection
- Direct communications and claims settlement between customers and transportation services providers
- Simplified claims process
- 24/7 move counseling

Transportation Service Providers will see improvements and incentives
- Faster automated payments to Transportation Service Providers
- Preferential award of business to qualify vendors.

DPS will provide benefits to Personal Property Shipping Officers/Offices
- Flexibility of a central web-based application interface
- Shipment management online notification process
- Data Analysis
- Report and document generation

Marine Corps Base Quantico

Just 30 miles south of Washington D.C. in Prince William County Virginia, lies the town of Quantico. Bordered on three sides by the Marine base and on the fourth by the Potomac River, the town features shops and restaurants within easy walking distance from base. While average temperatures are mild, winter lows can drop down to the 20’s and highs can reach 90° F in the summer.

Quantico, known as “the Crossroads of the Marine Corps,” is the beating heart of the Marines, and is proud of its military culture and history. Several significant sites include the Air-Ground Museum on base, the National Museum of the Marine Corps, and the Quantico National Cemetery.

Prince William and Stafford County area offers a myriad of year-round attractions and activities for military families, including several water parks, 18-hole golf courses, and numerous opportunities to enjoy the great outdoors. Popular destinations include Leesylvania State Park, Prince William Forest Park, and the Occoquan Bay National Wildlife Refuge. Easy access to camping, hunting, biking, and boating and the endless attractions of the nation’s capital make Quantico an exciting place to live.
